Location: New York, NY

Position Type: Officer of Research

Position URL: [apply.interfolio.com/99062](https://apply.interfolio.com/99062)

#### **Position Description**

The Department of Environmental Health Sciences is seeking candidates for Dr. Norman Kleiman's Lab to perform duties for two funded NIH studies examining serological features and hallmarks of COVID-19 infection, severity of symptoms and potential diagnostic confounders as well as NIH study to establish biosimetric signatures of environmental hazards with a particular focus on either accidental or intentional ionizing radiation exposure. The candidate will identify, recruit, secure informed consent and administer subject questionnaires from human subjects. Maintain records and data according to the needs of each sponsor. Obtain specimens from human subject from blood draws and other specimen retrieval (e.g. saliva, urine). Process samples from, store and ship to our collaborators on a periodic basis. As needed, assist with animal experiments related to the above. Performs related duties & responsibilities as assigned/requested.

#### **Qualifications**

Minimum Degree Required: Bachelor's degree in a related field or equivalent in training, education and experience and at least 1 – 4 years experience

Minimum Qualifications:

- 1) Must have knowledge and understanding of both the underlying biology and practical aspects of the experimental protocols and approach.
- 2) Ability to work within lab guidelines and protocols to address routine issues that may arise with respect to reagents, equipment, vendors, shipments, etc.
- 3) Ability to work within lab guidelines and protocols to make informed decisions on subject recruitment, consent, blood draw, and analysis.
- 4) Ability to interact with collaborators, funding agencies, vendors.
- 5) Ability to present data and analysis for review.
